A Bradford power company will erect a \$50,000 warehouse in Winnipeg.

The by-law to erect a new bridge at Sault, Man., has carried.

—Jack Henderson, who achieved fame as the hangman of Louis Riel, died recently under a surgical operation in Montana. Henderson was an employee of the Hudson's Bay Company, before the transfer of the Hudson's Bay Territories to Canada. He took an active part against Riel and his friends in the first rebellion and was imprisoned by Riel along with other loyalists. This made him very bitter against Riel, and when the second rebellion resulted in Riel's sentence to death he applied to be his executioner. He was employed in that capacity. He was living at the time in the vicinity of Regina. A few years ago he removed to Montana, where he died.

—Four new post offices appear in the Canada Gazette of July 19th, as having been opened in Alberta; Diana, on section 24-46-23-4; Chas. Rodberg, postmaster; Highland Park, section 20-44-21-4; Gus Backstrom, postmaster; Hill End on section 6-36-26-4; Edwin Sutherland, postmaster; and Hunka on section 18-57-16-4; John Whitford, postmaster. Diana is west of Wetaskiwin; Highland Park is south of Dalmahoy; Hill End is east of Penhold and Hunka is between Pakin and Whitford.

LOCAL.

—Gus Doze, of Beaver Hills, was in town on Monday.

—Calgary Albert, C. Gallagher, of Edmonton, is in the city.

—Supt. Constantine came up from Fort Saskatchewan on Monday.

—B. C. d'Easum, of Fort Saskatchewan, was in town on Wednesday.

—Wm. Hodgins, of Sunnyside, left on Tuesday morning for Renfrew, Ont.

—A scow built for some Galicians at Fraser's mill, left during the week for the lower country.

—The Union Bank has opened a branch at Medicine Hat, with E. K. Strath, as manager.

—Lawn social will be held in the grounds of the Presbyterian church, Fort Saskatchewan, on Wednesday, July 30th.

—Mrs. W. Johnstone Walker, and her daughter, Miss Janet, left for Banff on Thursday morning, for a short stay.

—Tows Bros., painters, have removed over Looby's harness shop, giving them larger space to accommodate their increasing trade.

—H. Bogueau leaves to-morrow with a scow built at Fraser's mill, taking a load of lumber and supplies for his ranch at Sickman lake.

—E. Lamarque and B. W. Bremner, of the H. B. Co.'s service, left on Wednesday for the Athabasca Landing en route to Mackenzie's river.

—The Albertan reports that a Galician named J. Hunzack was killed by the yard engine while crossing the C. P. R. track in Calgary on Wednesday, July 16th.

—Mrs. J. W. Shera, of Fort Saskatchewan, and Mrs. R. Connor, of Edmonton, left on Wednesday morning's train to visit relatives in Brookville, Ont.

Advertiser. The Lacombe agricultural society will hold their annual fair on August 15th and 16th. The directors are making a special effort to make this the event of the season.

—A lawn social will be held on the grounds of the Presbyterian church, Fort Saskatchewan, on Wednesday afternoon, July 30th. Music and speeches, football, baseball and lawn tennis. Meals from 4 to 6 p. m.

—The election of D. Maloney to the Territorial assembly for St. Albert district, has been protested. The petitioner is Augustin Leblanc, of St. Albert. The protest was lodged and the deposit made on Wednesday, July 23rd. The grounds alleged are corrupt practices and irregularities at the polls.

—Calgary Herald: Rev. Father LeMarchand has returned from Edmonton where he has been preaching a retreat. He has been away a month. A retreat will commence at the convent here next Wednesday. A large number of priests will be present, and the retreat will be conducted by His Lordship Bishop Legal.

—A Dawson telegram of July 14th, mentions the finding in the Yukon river of two bodies. One evidently that of a murdered man. The other had no marks of violence. The murdered man was found near Indian river, near Dawson. The other body was found near Selkirk. Neither have been identified.

—A horse, driven by R. Nolan, of Fort Saskatchewan, on Wednesday afternoon, at Strathcona, took fright and bolted; Nolan was thrown violently from the buggy landing on his head, receiving considerable injury. He was taken to the general hospital, where he is doing fairly well. Fortunately no bones were broken.

—Maurice Connors, who left here seven years ago, is a visitor and staying with his sister, Mrs. Ed. Looby. Mr. Connors is now in Batte, Montana, where he is a partner in the furniture business. He is much struck with the growth of Edmonton and the improvements generally. Mr. Connors returns to Batte on the morning's train.

—W. C. Wood, a merchant carrying on a business at Strathcona, was brought up before Magistrate Cowan charged with having obtained goods, from John W. Peck, & Co., Winnipeg, and Montreal, under false pretences. Case was dismissed for lack of evidence. The defendant was again charged before Inspector Belcher and committed for trial.

—Charles and William Robarge and Duncan McMillan were brought up before the police court charged with harboring unlicensed dogs. The two former were fined \$1 and costs, the latter, who had paid the tax since the summons was served, was fined the costs. The police do not intend letting any one escape, who attempts to avoid compliance with the by-law.

—In a letter received by H. B. Spratt, from J. V. E. Carpenter, familiarly known as "Pat", it is learned that the writer is at Cape Town and is in the paymaster's office. Referring to the conclusion of peace, Mr. Carpenter says that the Boers who took part in the war are quite satisfied with the terms under which they laid down arms and are reconciled to British rule. The general opinion being that they will make good citizens. "Pat" makes no mention of returning, but mentions that he may probably get to Rhodesia.

—Richard Rioux died on Tuesday morning at the general hospital after a short illness. A short time ago during a pleasure trip the deceased was up and set out of a camp, as a result of the wetting he caught a cold which settled on his lungs. Though of robust constitution and very muscular, the patient, in spite of the best care and treatment, succumbed. Deceased was a son of the late Hon. Justice Rioux, of Sherbrook, Que., and came here during the Klondike excitement. By profession he was a druggist, but did not follow the calling. The largely attended funeral was arranged by the St. Jean Baptiste society of which deceased was a member, and at whose request the band, attended, playing the "Dead March in Saul." The funeral was from the residence of O. Tessier, Victoria avenue. Service was read at St. Joachim's church and the remains finally interred at the cemetery.

—Train half an hour late.

—M. E. O'Brien, of Wetaskiwin, is in town to-day.

—D. W. Macdonald, who went to Calgary on business, will return on to-night's train.

—J. W. Morris has leased the west half of the new McLeod building, north side Jasper avenue, and will occupy it about October 1st.

—The Imperial Bank has secured premises at Wetaskiwin and is opening a branch at that point, in the course of a few days.

—M. Laurendeau and family arrived from Calgary on Wednesday. They will reside in one of C. Sandison's houses on McDougall street.

—H. Struchinski, Galician, of Beaver lake, is detained at Fort Saskatchewan, awaiting trial. He is charged with criminally assaulting Drinia Kondrick.

—The Sunday school of the Methodist church will hold a picnic at Riverside Park (Exhibition grounds) on Wednesday, 30th inst. A programme of sports for the children will be carried out.

EDMONTON BULLETIN JULY 25th, 1902

HON. JAMES H. ROSS.

Hon. Jas. H. Ross, commissioner of the Yukon, is one of the best and most favorably known public men in the Northwest Territories. He came from Ontario to Manitoba as a young man in the early 70's. In 1881 he removed to Moose Jaw, locating there before the railway arrived. He entered the Northwest council in 1883, for Moose Jaw district, and continued to represent that constituency in the Territorial council and assembly until he resigned to take the commission of the Yukon, in the early part of 1901. First as private member, then as speaker and afterwards as member of a responsible administration whose existence and power was very largely due to his exertions, always energetic, always on the side of progress, always to the front in protecting the public right and advancing the public interests, never a self-seeker, and above all never an agitator or a demagogue, always the man of sound common sense, of unerring judgment, he was universally recognized as a strong force for good in the public life of the Territories. His cheerful spirit and pleasing manner made him a personal favorite with all, while respect for himself and love of absolute fair play protected him from the weakness of too many good fellows in public life, advancing personal friends from personal rather than from public motives. His appointment to the commission of the Yukon was a recognition of the abilities he had shown and the work he had done in the Territories; and the course of events in the Yukon since he assumed the administration of its affairs has more than justified the choice made and proved the sterling nature of the qualities for which he was given credit in the Territories. If the blow which has fallen so unexpectedly results in lessening Mr. Ross' future activity, the loss will not be his alone, but will be the loss of the country as well. There are too few such men as Mr. Ross in the public life of Canada to-day, for any of them, or any part of their activity, to be well spared.

OATS ARE UP.

Devastating rains throughout the oat growing states of the Union and a squeeze by some speculators, forced the price of oats on the Chicago market up to 65c on July 19th. The price rose 15c in three days. While this no doubt is a panic price and may not be sustained by the final results of the harvest it is a hopeful indication. It appears that bargains had been made for July delivery which could not be carried out owing to the heavy rains, which delayed harvest. This was the cause of the very sudden and great rise. But besides there was a great deal of actual destruction of crop by storms, and no doubt there will be widespread damage as well. For September delivery the price was 34c. This is not enough to take Canadian oats to the United States, but it is enough to keep United States oats out of Canada, which is always an advantage. Between the prospective Australian demand, the good prices in the States and the probable revival of business in the Kootenay the prospects of a good price for Alberta's staple crop are over the average. At the same time there is every indication of an early harvest and a good average crop.

PUBLIC NOTICE

Is hereby given that necessary arrangements have been made for the proper and prompt enforcement of the provisions of the law, the destruction of prairie and forest fires throughout Manitoba, the Northwest Territories, and within the railway belt in the province of British Columbia, and any persons violating in any way the said provisions will render themselves liable to the utmost penalty provided in that behalf.

RAILWAY EARNINGS.

Railway & Shipping World; Calgary and Edmonton railway. Net earnings for April, \$33,909.55, against \$25,764 for April, 1901. Net earnings for four months ended March 31st, \$124,983, against \$81,115 for same period, 1901.

Qu'Appelle, Long Lake and Saskatchewan railway. Net earnings for April, \$19,089.10, compared with \$17,651.16 for April, 1901. Net earnings for four months ended April 30, \$47,089.10, against \$17,651.16 for corresponding period.

Winnipeg, Tribune, July 18: Advertisers from Morden state that Tuesday's wind storm caused considerable damage in that district, blowing down trees to pieces and transporting barns. No loss of life is reported, although pigs and fowl were killed on many farms. Several farmers lost their entire crops by hail.

Prince Albert Times: A great electric storm passed over on Friday evening. It was the most severe storm, though lasting but a short time, we have had for some years past but it did no damage. The wind rose after the electric storm and a considerable amount of rain fell.

THE BRACKMAN-KER MILLING COMPANY.

The operations of this concern were commenced in 1895. A site was procured at Strathcona, and the building erected on a phenomenal prospect. How the foresight of the management was justified can be judged from the following lines.

A solid three story brick building on a stone foundation was designed and constructed. Machinery, of the latest and most improved type, was imported at great expense. The inventory and purchase of certain machinery, was brought here from San Francisco, at exorbitant cost, to install the machinery was the result of his own fertile brain.

As seen by a representative of the Bulletin, during a recent visit, this mill is replete with all modern improvements procurable.

The engine room, which was first visited, appeared in some disorder, workmen were engaged taking in a large "Dayton heater," a boiler shaped contrivance which is designed to remove all impurities from the water used in the boiler. The inventory of the engine is a 100 horse power Jerome Wheelock automatic by the Goldie, McCulloch Co. and runs as smoothly as a whistle.

The elevator was next inspected. Here the grain is delivered by the farmers into the receiving hoppers one on either side. The grain is cleaned and stored at a possible rate of 1500 bushels per hour, when for commercial purposes only. The feed oats being carried to the elevator, the milling costs going to the miller's self apart for this particular class of grain.

In the basement is the line or power shaft and fly wheel. As an evidence that no expense was spared during construction, it may be stated that the shaft is carried on 8 cast iron pedestals erected on solid concrete piers 8 feet in the ground. By this arrangement all possibility of upsetting the true ring of the shaft by the settling of the building, is obviated.

The top floor of the mill is devoted to the graders, cleaning appliances and machinery for regaining wild buckwheat, clover and other foreign seeds. When this operation is complete the perfectly clean grain is passed through an automatic weighing machine, "which weighs and records every bushel of oats used." Here also are the bulked out separators, four in number, for separating the hulls from the oats; the steamer and the rolls, through which the steamed oats pass, and is the last machine used in the process. On the same floor are set the three "perfection dust collectors," which automatically receive the dust laden and combustible air from the various separators and purifiers and discharges the same purified.

On the lower floor is found the drying kiln of the latest design and of considerably larger capacity than necessary for present requirements, in fact the whole mill is equipped with a view to future business. Next in order, on the flat, are the hulling stones, for removing the outer coating of the oats and the stones for milling the old fashioned Scotch oatmeal. Near at hand is the "chopper" used almost exclusively for chopping grain for farm use as "feed." Close by is a mangle, which has just been imported, for pearling barley. This is an American manufacture of the very latest improved pattern, and entirely automatic. A power pocket and receiving scales completes the list on the floor.

Going to the door a simple, but ingenious contrivance whereby cars can be loaded up if required for loading or hauled away without the aid of an engine. As the second floor is set apart almost entirely to the sacking and packing of the various products there is no machinery of any note. This leads to the upper floor of the warehouse where the manufactured products are stored and from which cars and teams are loaded from a series of chutes.

Sacked grain is handled and disposed of from the lower floor of this warehouse. The perfect order and cleanliness which pervades, both inside the buildings and around the premises, indicates care and attention to the smallest details.

The daily capacity of the mill is as follows: 150 barrels rolled oats; 25 barrels oatmeal; 2 tons pearl barley. Owing to present limited local demand the output is only about one-third of its full capacity.

At the office, which is in a separate building, enquiries were made as to progress. It was learned that when the Alberta branch of the business was started in 1895 there were but three employees, besides the manager, required, at a cost of \$3,000 for the year. The staff being the manager, an engineer, miller and an assistant. In 1902 there are 20 regular employees, at a cost of \$12,000. Apart from wages paid in connection with the auxiliary elevators at Leduc, Waskia, Lacombe and Red Deer and the warehouse at Edmonton amounting to \$84,000 additional. Not to mention cost of teams hauling coal from the mine and grain from Edmonton to the mill. It is safe to say, therefore, that this company now distributes, in wages alone the sum of \$20,000 per annum.

As an evidence of the progress of the district the grain purchases of the company have risen from 38,000 in the season of '95 and '96 to 880,000 in 1901 and '02.

As an example of the enterprise and shipping capability of the company it is a fact worth noting they were able during the past season to secure an order from the Imperial government, for 4,000 tons of oat for shipment to South Africa—the whole being cleaned, bagged and shipped from the Alberta elevators within 30 days. This represents precisely six times the quantity of the total purchases of 1895.

The company are fully alive to the possibilities of the future in looking markets which will effectively absorb the grain. While every effort is made to keep the mill equipped with all the latest improvements.

Besides the heater and the pearling mill already mentioned, they have on the way a large cement mill, consisting of graders and hulling machinery of the most recent design.

The ambition of the management is to develop the Alberta end of their business as to enable them to export, in large quantities, direct to foreign markets.

The present business was first established at Victoria by Henry Brackman in 1878. He incorporated under the name of the Brackman and Ker Milling Co., with a capital of \$150,000, in 1891. Was re-incorporated as the Brackman-Ker Milling Co., with a capital of \$500,000 in 1902.

The head office is in Victoria with H. Brackman, president and D. R. Ker,

general manager. The latter gentleman was, for several years, president of the board of trade, is favorably known as a progressive business man and to whose favorable report on Alberta the district is indebted for the establishment of this industry.

As a recognition of his services, the position of Mr. T. W. Lines was changed from that of local manager to that of manager for Alberta and the district east of the mountains.

The prevailing high prices of the last season have been largely brought about by the attitude of this company in stiffening prices.

The company have large mills in Victoria, built in 1891; a small mill and warehouse at New Westminster, and distributing stores and warehouses in Vancouver, Nelson and Rosland also branch agencies at different points.

COOPER ON THE WARPATH.

Calgary Herald: Some of the hotel men of Calgary are complaining respecting the visitations of Mr. Cooper, of Edmonton, who has been making a stringent inspection of their premises. They complain—and with a certain amount of justice too—that they have received no notification whatever with respect to the authority possessed by Mr. Cooper. They somewhat resent the course pursued in this instance by the department, it is understood that Mr. Cooper is acting under specific instructions given him by Horace Harvey, deputy attorney general, who is at present staying at Banff, to make a stringent inspection of Calgary hotels. It is somewhat hard to expect the hotel men to comply with the instructions of Mr. Cooper when they have received no notification of the position which he holds or the authority which he possesses.

It is too bad that Mr. Cooper does not hire a band to announce his approach.

BASEBALL PRIZE.

As an addition to the attractions of the Fort Saskatchewan fall fair to be held next month, J. W. Shera, M. L. A., has offered a \$50 cup for competition by the baseball enthusiasts of the district, to be played for on the grounds during the fair. Competition open to any baseball club in Alberta. The club winning it two years in succession keeps the cup. Entries free. The baseballists of Edmonton and Strathcona, should get out and practice for this competition. Otherwise the cup will remain at Fort Saskatchewan; if the last official visit of the Edmonton club to the fort is any fair indication of probable results.

SALE OF LANDS

In the TOWN OF EDMONTON for arrears of Taxes.

NOTICE is hereby given that certain lands in the Municipality of the Town of Edmonton will be offered for sale for arrears of Taxes at the Town Hall, Edmonton, at 10 a. m. on the 30th day of August, 1902. Full list of which lands with particulars will be found in the issues of the "Edmonton Bulletin" of 10th, 23rd, and 30th June, and 7th July, 1902.

FAREWELL MEETING

At the suggestion of the members of the original congregation of the Presbyterian church in Edmonton, a farewell meeting was held in the old church building, on Wednesday evening.

Amongst the large attendance a great number of the "Old Timers" were noticed.

The meeting opened and closed with religious exercises.

The pastor, the Rev. D. G. McQueen, gave some very interesting accounts connected with the early history of the church, going back to a period beyond his own time. Some characteristic details were given in his own attractive style with reference to his early experiences amongst his congregation.

Naturally the members, particularly the older ones had become attached to the old building which had been their house of worship since '82 and had been used as such for twenty years.

The reverend pastor and Mr. K. W. MacKenzie gave a brief account of the work done at the general assembly, recently held at Toronto. One of the features worthy of special mention being the response given to the claims from the west. All the new officers of importance were selected from the west.

There are two synods for the west; one for Manitoba and the Northwest, the other, for British Columbia, including Alberta. The Rev. Dr. Herdman was appointed superintendent for British Columbia and Alberta, and the Rev. J. A. Carmichael, of Regina, for Manitoba and Northwest. The general secretary for the church, who will probably hereafter reside in the east, is the Rev. Dr. McLaren, of Vancouver. An evidence of the acknowledged importance of the west is demonstrated by the fact that the assembly next year will meet in Vancouver.

WEATHER AND CROPS

Over a week without a break in the most magnificent weather has improved the crops surprisingly. There is now very little complaint as to their being either light or backward. Wheat is in the bloom and oats and barley are in head. The warm, clear, breezy weather is doing thousands of dollars worth of good work every day. There are less weeds than usual.

Haying has commenced. The crop is heavy and with a continuation of the present weather an immense quantity will be put up.

The roads have dried up wonderfully and in the town the streets are dusty.

TERRITORIAL PUBLIC WORKS

A survey party has just returned from Glengarry, northwest of St. Albert, between Carrot Creek and the Sturgeon, has laid off a ditch five miles in length.

The people of Glengarry are doing considerable work in order to provide, at least, one good road to town at all seasons.

C. Sandison is at work on the base line. It is proposed to carry the drain westward, as well as putting in a small "catch drain" south of the road. He will also make general repairs and complete that portion of the work which was left unfinished last year.

Jim O'Donnell, bridge man, is engaged repairing Connor's bridge across the Sturgeon and will also renew the two bridges over Carrot Creek.

Plans are being prepared by the engineer for a new structure over the Vermilion, on the Athabasca Landing trail.

A. Cameron, bridge foreman, has just completed a new bridge, which is very substantial, over Deep Creek, on the correction line east of Fort Saskatchewan, and is now rafting the material down the Saskatchewan to a point opposite to Star, where the old bridge was destroyed.

RAILWAY ACCIDENT

Lacombe Advertiser, July 21.—About eleven o'clock on Saturday night a south bound mixed train ran into a bunch of horses about three miles this side of Wetaskiwin, killing thirty-two and wounding seven. The horses were on the track in the centre of a large slough, and were evidently bound keeping the track. The engine was derailed, and had to await the assistance of a train from the south. The horses were the property of Mr. Eggleston, of Wetaskiwin.

ARRIVALS

The following settlers and landseekers arrived since Tuesday, the 22nd; J. S. McMillan, wife and child; K. E. Thomas, Passmore, wife and son, Michigan; T. J. Hart, North Dakota; T. H. Dishon, E. J. Joiner, Thos. Veltner, W. Bergman, J. McMills, Minnesota; C. Bacon, J. Bacon, W. W. Corns, E. A. Orr, Frank Connor, Harold Eckhard, J. F. Hackney, Jos. Smilie, A. C. Selgra, Ontario.

LOCAL

—Hay plentiful to-day; Sold by the load at \$6 to \$7.

—Hon. A. L. Sifton, and Walter Scott, M. P., are on to-day's train.

—Sgt. Major Flinto came up yesterday from the Fort and returned to-day.

—Three Indians were brought in from Hobema, during the week to put in 30 days at the Fort, for being drunk and disorderly.

—Major Belcher, N. W. M. P., returned last evening from Wetaskiwin and Lacombe where he has been on official business.

—Grain is coming on very rapidly. Barley will soon be ready to harvest. Mr. Corbett, of Horse Hills, will commence next week.

—Brick laying at the power house has been delayed for want of lime. Fortunately two cars long looked for, arrived yesterday.

—C. W. Bacon, of Madoc, Ont., accompanied by his son John, arrived this week to look over his investments in Edmonton, made some years ago, and which have turned out very satisfactorily.

—On Wednesday morning, the bottom fell out of the ice house in the rear of the Queen's hotel. The outer end of the building was supported on posts, which were carried away by the sliding of the bank. Sam McCauley was called in to remove the building. A tackle was attached to prevent its going over the bank, but it was found necessary to tear it down. The ice, about 25 tons, will doubtless be lost.

—E. Raymer returned from the east on Wednesday evening. He went in Montreal for several days, having gone there on business. The opportunity was taken to visit the Thousand Islands and other holiday resorts. Mr. Raymer also took in other eastern cities, where he was able to personally attend to some business connected with his establishment here. Though he enjoyed the trip immensely, he like other Edmonton citizens, is glad to get back.

—A. H. Ponton, Indian department surveyor, left today for the Athabasca Landing en route to Lesser Slave lake. The journey from the Landing will be by canoe. Some small matters, connected with the Indian reserves along the shores of Lesser Slave Lake, will be attended to. No work will be done on the Peace just now as Mr. Ponton's services are required in Southern Alberta, where he will proceed immediately on his return from Slave lake.

—Work on repairing the railway extension is progressing. One of the big "washouts" is filled. Before this was done about 70 yds of track was taken out. The washout near the Brackman-Ker hog ranch is being filled up. Foreman McCrimmon has a gang of men and some dump carts at work. Shovelers will be put on as soon as steamers can be secured. There is some difficulty in procuring help, this being haying season. A number of men are, however, expected within the next day or two. Some difficulty is experienced owing to the constant setting of the fills.

—The Sturgeon Presbyterian church picnic held yesterday, was very largely attended. Mr. McLe Foster's concrete turn out in full force. R. Seccord, M. L. A., and Mr. K. W. MacKenzie and some 20 visitors from town took part in the enjoyment. The weather was perfect and refreshments, all manner and kind, that could be desired. Games and athletic sports, including baseball and football, were indulged in. Everyone went for a good time and left highly pleased with themselves and friends particularly with those ladies who furnished the goods and things and who contributed largely to the success of the entertainment.

A party of Beaver lake settlers came in on Tuesday afternoon by way of the base line. They left Tolden on Monday and reached Edmonton Tuesday before three o'clock. They report the road bad; but say that a comparatively small expenditure would make it suitable for travel. If made a good road it would lead for Edmonton and Strathcona the trade of the great Vermilion district, which is now largely going to Wetaskiwin. The party included B. Logan, John C. Wood and daughter, F. Pruden, Edward Pruden with his mother and niece, C. Harrison, E. Gladu, J. Norn, the Wood Bros., and Messrs. Hodge and Hodge.

—All Saints Sunday School annual picnic was held on the race grounds yesterday afternoon. Busses conveyed the children from the school house. There was a large attendance of children whose parents were also well represented. The sports and games were in charge of Mr. Vernon Barford, the superintendent of the Sunday school, assisted by Mr. E. C. Emery. The children took a lively interest in the races, prizes to the successful competitors being distributed by the rector, the Rev. H. A. Gray. Tea was served at 6 p. m. and later in the evening ice cream and cake was one of the attractive features appreciated by the juveniles. Great praise is due to the rector, superintendent, the teachers and the members of the congregation for their efforts in providing so enjoyable an entertainment.

HOTEL ARRIVALS

Thursday.—J. E. Flinto, Fort Saskatchewan; Mrs. Reynolds, Toronto; C. P. McQueen, Calgary; H. H. Cooper, Mrs. W. S. Smith, D. Cunningham, Vancouver.

MR AND MRS. J. R. BOYLE

Calgary Herald, July 23: The marriage took place yesterday at the residence of Mr. John Shaw, High River, of his daughter, Miss Dora, to J. R. Boyle, a well known young lawyer, of Strathcona. The couple left immediately for the north. Mr. Boyle is well and favorably known in Calgary, while his bride was one of the most popular and charming young ladies of the High River district. She is a qualified Territorial teacher and was most successful in her work, having had charge of schools at Davisburg, Maple Leaf and Tongue Creek. The Herald joins with many friends in tendering heartiest congratulations to the young couple.

WINNIPEG FAIR

The Free Press opens its description of the first day of the Winnipeg fair as follows:

A faultless day from morning till night, a pleasant crowd, and the best first day gate in the history of the exhibition yesterday. Nine thousand and five hundred of these were children, practically the whole child population of the city. As yesterday was Children's day the school children of the city were admitted free to the grounds.

The United States Wine Market.

Chicago Farm Implement News: The 1-2 cent advance of June 24th has been followed by another increase of 1-2 cent, taking Tuesday, July 1, bringing wine to the 13-cent basis for a trial. Notwithstanding the heavy rains and the general cry of crop damage in certain sections, the demand continues strong. There are but few manufacturers and jobbers now in the market, and those who have arrived are expected to arrive here in the next few days. An active demand for more than they can supply. All factors in the trade now seem convinced that the harvest will absorb all available twine.

The new scale of prices, Manila quotations being practically nominal, is as follows, central delivery:

Sisal,	13
Standard,	13
Manila (550-foot),	141-4
Manila (600-foot),	151-2
Pure manila,	17
Car lots, 1-4 cent less, Five ton lots, 1-8 cent less, Full terms,	

PUBLIC NOTICE

Is hereby given that necessary arrangements have been made for the proper and prompt enforcement of the provisions of the law for the prevention of prairie and forest fires throughout Manitoba, the Northwest Territories and the railway belt in the province of British Columbia, and any persons violating in any way the said provisions will render themselves liable to the utmost penalty provided in that behalf.

Special attention is called to the necessity for the greatest caution being observed in the use of fire by settlers, campers and others during the dry summer months, and to the penalties imposed for violation of the provisions of the law in this regard.

These penalties vary from \$5.00 to \$200.00, besides any that may be imposed by civil action for damages caused by such fires.

The following rules should be observed:

(1) In building a camp fire choose a place that is sheltered from the wind, and clear away any mass of inflammable material surrounding it.

(2) Be careful not to throw away a cigar stub or match on the prairie or in the woods where it is extinguished.

(3) Settlers desiring to burn brush and log heaps in clearing their land must do so at proper seasons of the year, and not allow the fire to escape from the premises.

(4) All employers of labor should see that their employees whose work is in the open air are furnished with copies of the act respecting prairie and forest fires, and that they are instructed in regard thereto, as such employers are responsible for any violation of the law caused by their servants.

As every person in the community is liable during the dry seasons to suffer from loss by prairie or forest fires and as it is an undoubted fact that in most cases these are started through carelessness, it is hoped that these suggestions will be observed.

Settlers are therefore earnestly requested to co-operate in every way possible with the officers of the government with a view to the prevention of fires and the strict enforcement of the law in that behalf.

E. STEWART,

Superintendent of Forestry,
Ottawa, May 6th, 1902.

Manitoba Weather and Crops.

Commercial, July 12.—Another week of fine growing weather has passed. The crops are making splendid progress in all sections, excepting the extreme northwestern part of Manitoba, where they are drowned out and growing rapidly. Cattle grass is also doing well. A few mishaps in the shape of hail storms have occurred during the week but the total damage is light and the crops covered in. As compared with normal years the wheat crop is about ten days behind, but that is not regarded as a serious drawback. It increases the chances of damage by an August frost, and shortens the shipping season.

MARRIAGES

Ball—Ball.—At the Methodist parsonage, Edmonton, on Wednesday, July 23rd, by the Rev. E. J. Hodgins, B. A., Mr. Wallace Ball, of Strathcona, to Miss Jennie Orwell Ball, of Edmonton.
